RE: Sustainability in Purchasing Survey

The Department of General Services (DGS), Procurement Division, Engineering Branch invites departments to participate in the next phase of expanding sustainable procurement across California agencies by completing a survey to help understand the current role of sustainable purchasing in your organization. This survey is first in a series of engagement opportunities where departments will be introduced to Input-Output Life Cycle Assessment (IO-LCA) concepts.

DGS-PD Engineering Branch greatly appreciates your participation in the survey and looks forward to a partnership in developing and prioritizing strategies for improving the states' expenditure profile for goods and services. Results of the state spend IO-LCA will be used to help form departments' social, economic, and environmental purchasing goals.

The survey is available at the following web page:

- <https://www.surveymonkey.com/r/IO-LCA2015>

Questions or concerns regarding this survey may be addressed to:

Charleen Fain-Keslar
Engineering Branch Chief
